3. Other site Planning and Technical Issues
 - A. The following changes were made to the west end units at Buildings A and C to accommodate Fair Housing Act Requirements:

 - 4 attached covered parking spaces which were included behind the affected two-story units have been removed from the project. These spaces were relocated as detached covered parking spaces adjacent to each affected building.
 - Building elevations were updated and adjusted slightly to reflect these floor plan changes and ensure compliance with exterior material percentage requirements.
