- Please submit a preliminary digital addressing .SHP or a .DWG file as soon as possible. This digital file is used for street naming, addressing and preliminary GIS analysis. Include the following layers as a minimum:
  - Parcels
  - Street lines
  - Building footprints (If available)

Please ensure that the digital file is provided in a NAD 83 feet, State plane, Central Colorado projection so it will display correctly within our GIS system. Please provide a CAD .dwg file that is a 2013 CAD version. Please eliminate any line work outside of the target area. More information can be found at: <http://tinyurl.com/AuroraCAD> or by contacting [CADGIS@auroragov.org](mailto:CADGIS@auroragov.org)

Since there are several outstanding issues, you will need to make another submission. Please e-mail me the revised site plan. As always, if you have any comments or concerns, please give me a call. I may be reached at [pingrum@auroragov.org](mailto:pingrum@auroragov.org) or 303.739.7227
