Subject: RE: Parklands Meeting Summary/ Approval to Proceed

Scott – My only comment on your summary of the meeting is that “Parklands” should be changed to “Coal Creek Reserve” with regard to OGOAs 5 and 6.

Coal Creek Reserve, LLP has reviewed the drawings for OGOAs 5 and 6 and approves them, subject to CORE’s approval of drainage (as indicated in your notes below).

With regard to the other OGOAs (1, 2, 3, 4 and 7), I have circulated your drawings among the ownership group and received no comments other than the ones you received at our meeting. Consequently, this will also confirm our approval of the site plans for those OGOAs.

Subject: Parklands Meeting Summary/ Approval to Proceed

John-

Please find below a summary of the great progress we made in yesterday’s meeting, along with our agreed upon path forward. Pursuant to the paragraph 3(a.) of the Amended and Restated Surface Use and Damage Agreement, executed 1/25/17, between Cherry Creek Vista Holding Partnership, LLP et al, and Burlington Resources Oil & Gas Company LP, please confirm your approval to proceed with local permitting for the OGOAs noted as “Approved” below. I have attached individual pdfs for each location, containing Parklands future development map with the location circled for reference, along with the associated drawing(s) for the well site. Please let us know if we may answer any additional questions, or feel our summary should be revised in any way.

Thank you,

Scott Farkas
