MEMORANDUM

January 15, 2019

Compositive Design Changes

1. Donor Tower Addition
 - Bell tower utilizing the existing building footprint – With slight footprint modification
 - Windows along Stair 1 Steps (East Courtyard)
2. Canopies at East and West Entries
 - Steel to match the entry façade
 - Recessed lights at exterior
3. Relocate phase 1 playfield from North to permanent location on the South side
 - This also included enlargement of the courtyard area to further align/center on phase 2 scope and an access path that is ADA compliant to the playfield.
4. Relocate Transformer to West – Will align with phase 1B exterior walls
5. Alternate Entry Gate Design
 - Design refinements – larger gates columns
 - Integrated stone bench – brick wall behind
